## **OVERVIEW**

The way we treat and view the environment heavily impacts the way we live and work, therefore we feel it's important to share the responsibility of sustaining our planet.

All Cahoot staff work from home, which helps to reduce our carbon footprint – albeit through serendipity rather than effort.

Paper usage is kept to a minimum and where possible paperless forms of communications are used. Old printers and cartridges are taken to local council recycling plants.

## **OUR SUPPLIERS**

All our print suppliers are proactive in reducing the adverse effects on the environment that their businesses can have, including the use of soya-based inks, FSC certificated paper/board and low-risk chemicals. A lot of the work we do is printed on 100% recycled materials, including all our Bond, Pulp and Kraft. Recycling of materials such as paper, plastic, wood pallets and office waste is a top priority.
